escusi

Staff quick guide

Five things, one minute. Keep it by the till.

1 Get the Staff app

Install **escusi Staff** from the App Store or Google Play. Allow notifications — that is how requests reach you.

2 Enter your invite code

Your manager gives you a code. Type it in once. No email, no password.

3 Go on shift

Switch **On shift** when you start and off when you leave. Off shift = no notifications.

4 A guest taps — you get it

Your phone shows the table and what the guest asks: **Table 7 · Asks for the bill**. A typed message arrives in your language.

5 Mark it done

When you have helped the guest, mark the request done. If nobody answers in time, a reminder follows, then the manager is alerted.
